

# Plasson Sustainability Policy

## This is the Sustainability Policy Statement of Plasson UK Ltd

Plasson are committed to sustainable development (meeting the needs of the present without compromising the ability of future generations to meet their own needs) as a guiding principle within our work. Concern for the environment is an integral and fundamental part of this commitment. Our aim is to reduce the impact on the environment from our operations.

To this end Plasson will assess, as required in ISO14001, the environmental impacts of our operations and set objectives and targets in order to improve our environmental performance. We will regularly review these targets.

### We will:

- Promote responsibility for the environment within the organisation and communicate and implement this policy at all levels within the workforce
- Maximise the product life of our fittings to reduce future need for replacements
- Reduce the use of energy, water and other resources;
- Minimise waste by reduction, re-use and recycling methods;
- Comply with all relevant environmental legislation/regulation;
- Ensure that our policies and services are developed in a way that is complimentary to this policy;
- Not prioritise funding needs ahead of sustainability requirements;
- Encourage business partners to commit to the sustainable development philosophy;
- Identify and provide appropriate training, advice and information for staff and encourage them to develop new ideas and initiatives;
- Provide appropriate resources to meet the commitments of this policy; and
- Promote and encourage involvement in local environmental initiatives/schemes.

Plasson senior management will oversee the adherence to this policy and promote it throughout the company's business activities.
