

# Plasson Environmental Policy

This is the Environmental Policy Statement of  
**Plasson UK Ltd**

Plasson has put in place mechanisms to monitor, control and continuously improve its business operations by reviewing its activities and investigating new methods for reducing our Environmental Impact whilst achieving our business goals.

*Plasson understands the importance of ensuring good environmental practice, this will be achieved by:*

- Operating an Environmental Management System in accordance with ISO14004:2004.
- Incorporating environmental responsibility throughout all business operations by planning, reviewing and developing the Plasson Environmental Management System.
- Working with suppliers and customers to minimize the environmental impacts of our activities consistent with best practice.
- Minimising the resource usage and waste whilst maximising recycling and preventing pollution.
- Meet or exceed all the legislation and other requirements that relate to the company's activities.
- Requiring those working on our premises to comply with the specifications of our Environmental Management System.
- Motivating and training personnel in actions to improve the company's performance in areas that have the potential to impact the environment.
- Communicating the policy to all stakeholders including staff, contractors, customers and suppliers.
- Supporting and adhering to our customers defined environmental requirements in all aspects of our business processes.
- Analysing feedback from customers, suppliers and employees to identify potential improvements and required actions for areas of under performance.
